DETECTIVE BUREAU
(201) 768-7144

The Closter Police Department is launching a pilot program for all Closter residents to register their child/children under the age of 21 with special needs, with hope to expand to all ages in the near future.

For the purpose of this registry we would define individuals with “special needs” as: individuals who, due to physical, mental, or developmental conditions are functionally limited in their ability to independently carry out activities of daily living. This registry will stay in house and confidential. It will allow us to quickly identify your child in any emergency situation in which a care giver may not be present. It will provide us with emergency contact information that will be readily available to all officers.

The registration form will ask for all pedigree information, an up to date photo, and any personal instructions that may help us help your child in your absence. This registry is completely voluntary. The registration form can be found on the Closter Borough Website or can be picked up at the Closter Police Department Headquarters.

You can submit the form in a few different ways: electronically on the borough website, by printing it out and dropping it off at the Closter Police Station, or respond to the Closter Police Station to fill it out in person.

Any questions or anyone seeking further information please do not hesitate to contact Patrolman Christopher Barbieri at telephone number 201-768-5000 ext. 519 or email cbarbieri@closterpolice.org.
